

## Department of Systems & Engineering Management Faculty Pipeline Position Announcement

1. The Air Force Institute of Technology (AFIT) is seeking applicants from the Contracting career field (AFSC, 64P) for an AFIT-sponsored PhD with subsequent duty as a resident faculty member in the Graduate Strategic Purchasing (GSP) Program. Minimum requirements for the program include a bachelor's or master's degree in an appropriate discipline, a master's grade point average (GPA) of 3.5, graduate record exam (GRE) scores of 1200 [or commensurate GMAT scores], and a superb military record. If you are interested, we invite you to submit an application package no later than 31 August 03.
2. If selected for this program, you would be given a 3-year assignment to a civilian institution where you would work full-time on doctoral studies. Upon completion of the doctoral program, you would join the AFIT faculty for a 4-year teaching assignment. The curriculum of your program should emphasize an appropriate area of management (e.g., strategic purchasing; supply chain management; business policy and strategy) to prepare you for your teaching responsibilities. More specific guidance will be provided to the selected candidate in an effort to balance his or her interests and background with program needs. Since the school slot is for FY 04, you would have to begin your studies no later than September 2004.
3. Your application should consist of five attachments: resume, three letters of recommendation, OPRs for the past 5 years, copies of transcripts from all colleges attended, and a copy of the most recent GRE (or GMAT) scores. To ensure that your commander is aware of your intentions, the application should include a cover letter that is sent through your commander to AFIT/ENV using the "IN TURN" memorandum format.
4. For more information regarding the Department of Systems and Engineering Management, please refer to our website at <http://en.afit.edu/env/>. If you have any questions concerning the sponsorship program or the application format, please contact Major Daniel Holt.
